

OUR CLEANING PRODUCTS

ABOUT OUR PRODUCTS

We at White Lotus are concerned for both the environment and our clients. Since we value transparency, we'd want to tell our customers about the high-quality cleaning supplies we offer in their residences.

We constantly try to utilize environmentally friendly items as much as we can and our workforce is trained to believe that less is better. Some of our cleaning products are not environmentally friendly, yet they must occasionally be used to get rid of some dangerous bacteria and spores.

In order to provide our customers with the best results while having the least negative effects on the environment, we are always assessing new cleansers and solutions.

We are ready to make accommodations if there are any products that could trigger reactions or if customers want to include items they enjoy and have on hand.

We also take great pride in using bagless Dyson brand vacuum cleaners. When possible, we prefer to utilize and maintain our vacuums. If a client provides a vacuum, we will use it if it is in good functioning condition. We won't repair or diagnose issues with vacuums owned by customers.

To make life easier for our clients, all rags, brooms, buckets, and mop heads are also provided.

CLEANING PRODUCTS WE USE

PRODUCT:

Here at White Lotus, we love Grove Collaborative.

Grove prioritizes ingredients, ethics, and sustainability.

Natural products are important for us to offer. So, as an add on, you can elect for it, but we also understand and respect the love our clients have of Clorox products (The founder grew up on it).
